Date: Monday, January 18, 2016 1:11:00 PM

Hello,

This is a request for supplemental information. I already have the report for incident 15-34793.

Metra cancelled the outbound train in order to do an inspection of coach car 8256 on train number 2206 on track 7. I am requesting the final inspection report of the stairs leading down from the upper level to the lower level on coach car 8256.

Thank you
